Window Film Vs. Etching

- Window Films Offers:
- Enhanced Precision:
 - Installation of etched glass can be difficult to line up an/or install square.
 - When installing detailed designs and joining multiple panels, it is especially difficult to make sure everything lines up properly.

Window Film Vs. Etching continued

- Lower Installation Costs:
 - Window Film material and installation costs are much less than etching and sandblasting.
 - Since installation can be done quickly and without removal (on existing projects) down times for your business is reduced.
- There is also less chance of glass breakage during installation of window film.

Window Film Vs. Etching continued

- Lower Maintenance Costs
 - Window Film does not hold oils or fingerprints like etched glass.
 - Clean up is as easy as with standard glass.
 - Some films reduce interior fading.
- Dynamic Design Options
 - Tired of the look? Remove & Replace at a fraction of the cost of removing and replacing an etched glass lite.

Window Film Vs. Etching continued

- Dynamic Design Options - More
 - In a lease or renting? Window Film is semi-permanent, it will last as long as you need it to perform.
 - Film Offers Overlays & Colors
 - Photo Realistic Printing and Rendering
 - Graphics, abstract images, logos, text & more!

Window Film Vs. Etching continued

- Occupant Safety
 - In the event of glass breakage, decorative window film can help to hold the shards together to minimize injury.
 - Film can quickly add privacy to conference & Meeting rooms or any where else confidential information may be handled.
 - Window Film is also a cost effective way to add vision strips to existing doors, windows and partitions.

Custom Cutting Details

Frequently Asked Questions

- What can we use?
 - From a dream to a developed design, we can help you realize your project desires.
- What kind of files can we use?
 - We can use files from Adobe Illustrator, CAD, Corel Draw and more. It is best to work with vectored file formats.
- Can you use our company logo
 - Yes, especially in the formats above.

Custom Cutting Details

Frequently Asked Questions

- How long does it take?
 - Many projects can be done in just a few days.
- Will the install disrupt my business?
 - Not at all, the process is quick, quiet, odorless, and isn't harmful to surroundings.
- It's removable but will it harm the glass?
 - No, a professional installer will be able to remove the film without difficulty.
